

Eber Leguizamón

Front-end Developer

eberlegza@gmail.com

0351 156629823

Cordoba, Argentina

I am a self-taught web developer, passionate about design and programming. I found my place in the frontend, where I can develop both skills. I'm still learning, excited about the places I can reach.

I work with React, framework that has won my heart.

After a long time of dedication and study I started my first projects and now I am looking for work experience.

Work experience

2022 - Present

Available for a project or job in web development.
